ABSTRACT

This catalogue lists the oceanographic publications received by World Data Center A, Oceanography, from 1 October 1979 through 30 September 1980. It was compiled by the staff of Literature Research Company.

ACKNOWLEDGMENTS

The following staff members of Literature Research Company assisted in the preparation of this catalogue: Richard L. Bullington, Jr., Project Leader; Christina Nassikas, editing and proofreading; Averill Laurie and Virginia Moore, cataloguing; Robert Kursch, Gail Seal and Virginia Moore, proofreading; Averill Laurie, technical typing; Nancy Lee Maloch, paste-up artist. Ronald E. Moffatt and Charlotte L. Sazama of WDC-A, Oceanography, provided technical assistance.

INTRODUCTION

The World Data Center system was established in 1957 to collect data from the numerous and widespread observational programs of the International Geophysical Year (IGY) under the principles set forth by the International Council of Scientific Unions (ICSU) and to make such data readily accessible to interested scientists and scholars. The system consists of World Data Center A (WDC-A) located in the U.S.A.; WDC-B located in the U.S.S.R.; and several WDC-C's located in Western Europe, Australia, and Japan. WDC-A is established under the auspices of the U.S. National Academy of Sciences where the Coordination Office is located. WDC-A is divided into seven discipline centers whose addresses are given on pages vi and vii. These centers are located in institutions which, in the opinion of the Academy, can best serve the interests of science because of their data handling capabilities for the appropriate scientific disciplines. WDC-A, Oceanography, is collocated with the National Oceanographic Data Center (NODC) in Washington, D.C.

ICSU first assigned responsibility for the operation of the World Data Centers to its Comite Special de Annee Geophysique Internationale (CSAGI). After completion of the IGY programs, CSAGI's responsibilities were terminated in 1959. ICSU then delegated the responsibility for the operation of the World Data Centers in the post-IGY period to its Comite International de Geophysique (CIG). This function is now discharged by the ICSU Panel on World Data Centers. The framework for continued international exchange of data is set forth in the Fourth Consolidated Guide to International Data Exchange through the World Data Centres and the Intergovernmental Oceanographic Commission's Manual on International Oceanographic Data Exchange.

Each WDC is open to visitors and guest workers from any country; all data in the centers are accessible to visitors.

Arrangements can be made to borrow from WDC-A, Oceanography, any publication for which duplicates are available at the Center. This temporary use of publications may not exceed a period of one month, not including time of transmittal.

Copies of extracts of noncopyrighted materials may be provided on request, at a cost not to exceed that of reproduction and mailing. Details for obtaining data and information from the Center are given in the Catalogue of Data.

WORLD DATA CENTER A

World Data Center A consists of the Coordination Office and seven subcenters:

World Data Center A,
Coordination Office
National Academy of Sciences
2101 Constitution Avenue, N.W.
Washington, D.C., U.S.A. 20418

Telephone: (202) 389-6478

GLACIOLOGY (SNOW AND ICE):

World Data Center A,
Glaciology (Snow and Ice)
Cooperative Institute for Research in Environmental Sciences
University of Colorado
Boulder, Colorado, U.S.A. 80309

Telephone: (303) 492-5171

METEOROLOGY (AND NUCLEAR RADIATION):

World Data Center A,
Meteorology
National Climatic Center
Federal Building
Asheville, North Carolina, U.S.A. 28801

Telephone: (704) 258-2850

ROCKETS AND SATELLITES:

World Data Center A,
Rockets and Satellites
Goddard Space Flight Center
Code 601,
Greenbelt, Maryland,
U.S.A. 20771

Telephone: (301) 982-6695

ROTATION OF THE EARTH:

World Data Center A,
Rotation of the Earth
U.S. Naval Observatory
Washington, D.C., U.S.A. 20390

Telephone: (202) 254-4023

OCEANOGRAPHY:

World Data Center A,
Oceanography
National Oceanic and Atmospheric Administration
Washington, D.C., U.S.A. 20235

Telephone: (202) 634-7249

GENERAL INFORMATION

Arrangement of the Catalogue

This catalogue lists the publications received by WDC-A, Oceanography, from 1 October 1979 to 30 September 1980. To enhance the usefulness of the catalogue, suitable cross references are provided by means of keyword and author indexes.

The publications listed in the catalogue are grouped by countries of origin. Preceding each publication is an identifying catalogue number. The numbering system is designed after that used in other WDC-A, Oceanography, catalogues. The first two digits identify the originating country. The number assigned to each country is given in the Numerical List of Countries. The next two digits, after the decimal point, identify the contributing institution. The names of the countries and institutions are printed in capital letters at the beginning of each group of references, preceded at the left by their identifying numbers. In some instances, where specific institutions are not identified separately, the institution number is given as ".00." The final three digits following the dash represent the unique number for each document. This document sequence number is assigned in the order in which the publication is catalogued. For example, Australia is number 02; Commonwealth Scientific and Industrial Research Organization is .01. Thus, the first publication listed in this Supplement will have the catalogue number 02.01-412. If a publication contains data that are listed in the Catalogue of Data, that catalogue number is cross referenced in parentheses after the publication information. For example, after publication number 39.15-372 information appears (WDCA-239.3 C-3) which shows that this publication contains data for catalogue number 239.3 C-3 in the Catalogue of Data.

In this Supplement, the articles that appear within some journals are indexed individually following the journal entry. For example, following publication number 24.11-022, the articles included in that publication are numbers 24.11-022.1, 24.11-022.2, 24.11-022.3, 24.11-022.4 and 24.11-022.5. The decimal number is entered beneath the catalogue number. In cataloguing certain journals, articles not relating to the marine sciences are omitted.

In addition to serving as a means of sequencing the publications, the catalogue number constitutes a link between the indexes and the catalogue.

A brief section, which lists miscellaneous journals, reprints and reports, may follow the last institution listed for a particular country.

CATALOGUE OF ACCESSIONED PUBLICATIONS

Keyword Index

In the Keyword Index, the keywords in every title are placed in alphabetical sequence in capital letters. Below a keyword, all numbers of the documents in the catalogue in which that word appears are listed.

Author Index

The Author Index gives in alphabetical sequence the names of the authors of the publications listed in the catalogue. The corresponding catalogue number(s) follows the name.

02.01-412 AUSTRALIAN JOURNAL OF MARINE AND FRESHWATER RESEARCH 30(3), JUNE 1979.
Commonwealth Scientific and Industrial Research Organization, Vol. 30, No. 3. p. 295-424.

02.01-412 .1 Boland, F.
A TIME SERIES OF EXPENDABLE BATHYTHERMOGRAPH SECTIONS ACROSS THE EAST AUSTRALIAN CURRENT.
Its p. 303-314.

02.01-412 .2 Morgan, G.
ASSESSMENT OF THE STOCKS OF THE WESTERN ROCK LOBSTER PANULIRUS CYGNUS USING SURPLUS YIELD MODELS.
Its p. 355-364.

02.01-412 .3 Cannon, L.
ECOLOGICAL OBSERVATIONS ON CERITHIUM MONILIFERUM KIENER (GASTROPODA:CERITHIIDAE) AND ITS TREMATODE PARASITES AT HERON ISLAND, GREAT BARRIER REEF.
Its p. 365-374.

02.01-412 .4 Conacher, M. Lanzing, W. Larkum, A.
ECOLOGY OF BOTANY BAY. II. ASPECTS OF THE FEEDING ECOLOGY OF THE FANBELLIED LEATHERJACKET, MONACANTHUS CHINENSIS (PISCES MONACANTHIDAE), IN POSIDONIA AUSTRALIS SEAGRASS BEDS IN QUIBRAY BAY, BOTANY BAY, NEW SOUTH WALES.
Its p. 387-400.

02.01-413 AUSTRALIAN JOURNAL OF MARINE AND FRESHWATER RESEARCH 30(4), AUGUST 1979.
Commonwealth Scientific and Industrial Research Organization, Vol. 30, No. 4. p. 425-550.

02.01-413 .1 Ludington, C.
TIDAL MODIFICATIONS AND ASSOCIATED CIRCULATION IN A PLATFORM REEF LAGOON.
Its p. 425-430.

02.01-413 .2 Slawyk, G.
^{13}C AND ^{15}N UPTAKE BY PHYTOPLANKTON IN THE ANTARCTIC UPWELLING AREA: RESULTS FROM THE ANTIPROD I CRUISE IN THE INDIAN OCEAN SECTOR.
Its p. 431-448.

02.01-413 .3 Scott, B.
SEASONAL VARIATIONS OF PHYTOPLANKTON PRODUCTION IN AN ESTUARY IN RELATION TO COASTAL WATER MOVEMENTS.
Its p. 449-462.

02.01-413 .4 Wescott, G.
ANALYSIS OF MARINE HYBRIDIZATION BETWEEN TWO SPECIES OF THE GENUS CYCLOGRAPSUS (CRUSTACEA: BRACHYURA) IN SOUTHEASTERN AUSTRALIA.
Its p. 469-484.

02.01-413 .5 Shinkarenko, L.
DEVELOPMENT OF THE LARVAL STAGES OF THE BLUE SWIMMING CRAB PORTUNUS PELAGICUS L. (PORTUNIDAE: DECAPODA:CRUSTACEA).
Its p. 485-504.

02.01 413 .6 Glover, J.
CONCENTRATIONS OF ARSENIC, SELENIUM AND TEN HEAVY METALS IN SCHOOL SHARK, GALEORHINUS AUSTRALIS (MACLEAY), AND GUMMY SHARK, MUSTELUS ANTARCTICUS GUNTHER, FROM SOUTHEASTERN AUSTRALIAN WATERS.
Its p. 505-510.

02.01-413 .7 Staples, D. Vance, D.
EFFECTS OF CHANGES IN CATCHABILITY ON SAMPLING OF JUVENILE AND ADOLESCENT BANANA PRAWNS, PENAEUS MERGUIENSIS DE MAN.
Its p. 511-520.

02.01-413 .8 Rayner, S.
COMPARISON OF THE SALINITY RANGE TOLERATED BY TEREDINIDS (MOLLUSCA: TEREDINIDAE) UNDER CONTROLLED CONDITIONS WITH THAT OBSERVED IN AN ESTUARY IN PAPUA NEW GUINEA.
Its p. 521-533.

02.01-414 AUSTRALIAN JOURNAL OF MARINE AND FRESHWATER RESEARCH 30(5), OCTOBER 1979.
